2010 Summer Meeting at The Sandbjerg Estate

Sandbjergvej 102, DK-6400 Sandbjerg

9-11 June 2010

Call for abstracts

Dear PhD-student/pregraduate research student associated with DaCRA,

The 2010 Summer Meeting is arranged at Sandbjerg June 9-11. See First Announcement and Preliminary Program at www.dacra.dk.

The program will include free oral presentations and a poster session for PhD-students and pregraduate research students. There will be a DDK 10,000 award for the best oral presentation and three DKK 5,000 awards for best poster presentations. I hereby invite you to submit an abstract and to participate in the competition. This is a unique possibility for you to train your performance and to get a positive feed-back on your research project in a competent forum of international guest professors, supervisors and other students. Guest professors Paul vanhoutte, Gerald DiBona and Johannes Van Lieshout have confirmed their participation in the meeting.

The abstract should be written in English and not exceed one page. It must include the title of the project, names and institutional addresses for the participants, and your own e-mail address. It is not required that you include a lot of results in your abstract and presentation, if you are in the beginning phase of your PhD-project you may present the background for the project and your protocol.

If selected for **oral presentation**, your presentation will be included in one of the symposia or in one of the free sections. Your oral presentation must be in English and not exceed 10 min. There will be 5 min. for discussion after each presentation.

If selected for **poster presentation**, your poster will hang up during the entire meeting, and there will be arranged a poster tour in the program. The poster format is 150 x 120 cm (width x height). All abstracts will be printed in the abstract book available at the meeting.

When you submit your abstract, please indicate if you prefer oral or poster presentation.

The deadline for electronic submission of abstracts is 1 March.

Deadline for registration is 1 April.

Looking forward to seeing you at Sandbjerg!

Sten Christensen
Professor
Director, DaCRA
